

## **RULES REGARDING THE INSTALLATION OF SATELLITE DISHES**

Residents may install satellite dishes in their apartments. Residents living in units that can receive satellite signals who wish to install satellite dishes must adhere to the following rules:

1. Dish must be installed within the apartment or on a patio or balcony of which you have exclusive use. You may not install a satellite dish in a common area, exterior wall or on the roof, including the fascia (trim) of the building. You may not install a satellite dish outside your apartment unless you have a patio or balcony and have exclusive use of said patio or balcony.
2. Satellite dish must not be larger than one meter in diameter. You may not install any satellite dish larger than one meter (3 feet, 3 inches), measured across its widest part.
3. Dish must be securely mounted and may not extend beyond the edge of the apartment, balcony or railing. A tripod or other portable, heavy object may be used but must be anchored in a safe manner and not to interior or exterior walls, floors, ceilings, existing patio or walkway decks. Your dish must be mounted in such a manner that it cannot become dislodged. You may run a "flat" cable under a door jam in a manner that does not interfere with proper operation of the door. *If a "flat" cable is not used in the above manner then the cable line must be installed within the current cable lines that are already existing within the interior walls and the connection must be made in such a fashion that when dish is removed, it will not impair normal operation of the cable line.* You may not hang a dish out the window.
4. You may not damage or alter the unit and may not drill holes through railing, exterior walls, door jambs, windowsill, etc. or any other location where holes might impair the building's weatherproofing or there is a risk of striking electrical or water lines. Installation must not damage the apartment.
5. Dish must be professionally installed. You may not install the dish yourself. You may hire a professional to install it for you and our maintenance staff will supervise the installation. The installation and operation of your dish is at your own risk.
6. You are fully liable for any injury or damage to persons or property caused by your dish and related equipment. To ensure that you are able to pay damages in the event that your dish causes injury or damage, you must purchase and maintain liability insurance coverage for no less than \$100,000 covering any such injury or damage and list the Housing Authority as additionally insured. You must maintain the liability insurance coverage for as long as you have the dish at our community. You must provide us with proof that you have and maintain the insurance. You agree to defend, indemnify and hold us harmless from the above claims by others.
7. An Alteration Addendum must be signed prior to any installation.

I understand the above Satellite Dish policy and agree to the terms as stated above. I will not install a Satellite Dish without prior approval and a signed Alteration Addendum.
